ASSOCIATE HYDROGEOLOGIST POSITION

Date Listed: 14 December 2022

Address: Durban

Job Type: Full time, permanent position

Salary: GPT salary structure

Start date: 01 February 2023 or as soon as possible

GPT requires the services of an Associate Hydrogeologist in the Inorganic Unit to be stationed at the Durban office.

ESSENTIAL SKILLS

Business aspects:

- Effectively follow strategies developed by management to reach targets and ensure productive hours are achieved
- Ensure projects are completed within budget
- Ensure work quality meets and exceeds client expectations
- Plan and designate project resources within timeframes
- Keep stakeholders informed during the entire project, from kick-off to completion
- Ensure GPT and client SHEQ strategies implemented across unit
- Manage change when change arise using both client's and GPT's management of change procedures

Professional aspects:

- Groundwater assessments and monitoring - more routine projects can have appropriate teams from other offices involved
- Provide reliable interpretation of routine field data to formulate conceptual site model, with proof of originality, clear insight, and depth of understanding
- Plan, and in some cases, lead fieldwork, routine water, soil and rock sampling
- Perform field investigations and data evaluation including construction of basic conceptual models, with supervision
- Prepare basic proposals for all routine types of work for any client
